

Financial and Activity Report (sheet 1 of 2) Version 1.6

[illegible]

Financial and Activity Report (sheet 2 of 2)		
No.	Major Completed Actions (Short bulleted list of the major actions taken to date.)	Major Planned Actions (Short bulleted list of the major planned actions)
1	<ul style="list-style-type: none"> NASA completed all awards of Science, Exploration, Cross-Agency Support, and Aeronautics contracts and cooperative agreements in accordance with applicable Program Plans and Recovery Act provisions, and more than 73% of funds appropriated have been disbursed for those projects. 	
2	<ul style="list-style-type: none"> Exploration: At Wallops Flight Facility (WFF), Horizontal Integration Facility tile work is in progress, as well as system and electrical rough ins, sprinklers and plumbing in the high bay, and trimming, finishing, painting and fixture installation in the low bay. At Stennis Space Center (SSC), air compressor repairs continue, as does installation of hardware on LOX Barge #1 and the outboard base plate and the second pump skid installation on LOX Barge #5. In addition, two variable frequency drives (VFD) have been installed on Test Stand A-1 and a third VFD is underway. 	<ul style="list-style-type: none"> Exploration: Over the next month, the WFF Horizontal Integration Facility will be completed, as well as the LOX barge and tug refurbishments and check-out at SSC.
3	<ul style="list-style-type: none"> Science: Sea Ice Mission (IceBridge) Antarctica began coordination of ground infrastructure for McMurdo Survey operations with the purpose of gathering sea ice freeboard data using lasers, and snow depth on sea ice using radars. 	<ul style="list-style-type: none"> Science: DC-8 aircraft flights out of Punta Arenas, Chile over Antarctica for Airborne Science IceBridge are scheduled to continue through mid-November. The preliminary design review (PDR) will be held for the V/SWIR (visible to short wave infrared) hyperspectral imager system.
4	<ul style="list-style-type: none"> Aeronautics: Compressor electrical feeder cables have been installed and energized for the Compressor Reactivation Project at the Ames Research Center (ARC). Insulation of the new piping systems have been completed for the Propulsion System Laboratory Icing Capability Project at the Glenn Research Center (GRC). 	<ul style="list-style-type: none"> Aeronautics: At Langley Research Center (LaRC) a final report will be produced in November on comparisons between the GTM wing models and the equivalent plate models for IRAC; at Ames Research Center (ARC) the installation of compressor intercooler tube bundles and replacement of desiccant in the air dryer vessels will be completed in November, as well as Phase 1 construction items on the PSL Ice Crystal Capability Project at GRC.
5	<ul style="list-style-type: none"> NASA Office of Inspector General Audits: NASA continues to support a performance audit on the Cross Agency Support JSC Hurricane Repair activities which began on August 31st. 	<ul style="list-style-type: none"> Cross-Agency Support for Hurricane Damage Repair Projects at the Johnson Space Center (JSC): Completion of the Hangar E280 project is anticipated in December, as well as the completion of B32 and B9D roof repairs.
